What happens if you don't pay Cash App Borrow back? {Customer Support Center Guide}

Cash App **+1-(888)(303)(8807)** Borrow is a short-term lending feature available to eligible users, and borrowers are expected to repay the loan according to the repayment schedule shown before accepting the funds. If you do **+1-(888)(303)(8807)** not repay your Cash App Borrow balance on time, your account may incur applicable late fees (if disclosed in your loan terms), **+1-(888)(303)(8807)** and your eligibility for future Borrow offers may be affected. Cash App may also place restrictions on certain account features until the outstanding balance is resolved. Continued non-payment could **+1-(888)(303)(8807)** result in additional collection efforts or **+1-(888)(303)(8807)** other actions permitted under the loan agreement and applicable law. If you are having difficulty making a payment, review your loan details in the app and understand the repayment terms that apply **+1-(888)(303)(8807)** to your account.

Related FAQs

1. Does Cash App charge late fees on Borrow loans?
